

0.47589240202691985  
Score for part number #9 is 0.47589240202691985  
**Report for Customer from OptMind**  
Network recommends rejection based on threshold 0.726

With changes to the following factors the network would approve:

#3 NL30CL from 20.00 to 33.16

#4 DIFF10 from -9.80 to -24.46

#2 NL30US from 0.00 to 17.23

3 factors strengthening validation the most:

1) #7 factor EQUITYISEE value 199.00 is above expected by 198.18

2) #3 factor NL30CL value 20.00 is above expected by 16.45

3) #8 factor INDEXISEE value 35.00 is above expected by 33.84

3 factors weakening validation the most:

1) #6 factor ALLSECISEE value 139.00 is below expected by 141.31

2) #2 factor NL30US value 0.00 is below expected by 2.71

3) #1 factor NL5TF value -7.00 is below expected by 7.48

Note that even though the scores of factors EQUITYISEE DIFF10 NL30US ALLSECISEE are within the 3 most different scores from the expected they are not within the 3 most contributing or inhibiting because of model preference
